

**“CNUG 2008 Conference”**  
**March 27–29, 2008**  
**Banff Park Lodge, Banff, Alberta**

CNUG (Canada National User Group) in participation with the UK EMIS National User Group (EMIS NUG) and EMIS Inc., are in the process of preparing the first annual Canadian conference of this kind for EMIS PCS users.

This conference has been organized specifically for Canadian EMIS users and individuals interested in leading edge Electronic Medical Record Technology. It is a great opportunity to meet and learn from established PCS users in an interactive setting, share ideas and, find out about the most up-to-date developments. You will learn how to get the best out of your system through hands-on demonstrations, and have EMIS on hand to answer your questions.

Please take this opportunity to reserve these dates on your calendar. Who should attend? Physicians, administrators, clinical and support staff, trainers, those who are currently using EMIS, or will go live with EMIS in the upcoming year

More detailed conference information will be sent to you over the next few weeks. This will also be posted on the MDERA, EMIS NUG UK, EMIS Inc, UofC and CHR websites.

CNUG 2008 Conference Co-Chairs:

Dr. Steven Edworthy

Dr. Norman Yee
